

ABOUT THE HEADWATERS SOCIETY

The Headwaters Society is a growing community of individuals and families who generously donate \$1,000 or more annually to River Network. By contributing at this level, you invest in a brighter future for our rivers and our communities.

WHY INVEST NOW?

The waters of our country are in trouble, unable to support healthy aquatic life due to pollution, and stressed as a result of insufficient flows in rivers, lakes, and streams.

Fortunately, incredible gains are possible, particularly when we start at the local level.

As a member of the Headwaters Society, you will **empower river and water champions** with the knowledge and tools they need to move their efforts forward. You will help them **connect** with one another at our annual River Rally and through topical and regional coalitions and communities of practice. You will **expand** the visibility of local, state and regional groups to **amplify the collective impact of our network**.

JOIN US!

"River Network has been the single most important resource for our locally-based not-for-profit organization. They exist exclusively to help other organizations (like ours) do a better job achieving their missions."

-Michael Byrd, Prescott Creeks Preservation Association (AZ)

ABOUT RIVER NETWORK

River Network empowers and unites people and communities to protect and restore rivers and other waters that sustain all life.

We are the only national organization that connects local water champions across the country. We help thousands of individuals and organizations become well-equipped, effective, and courageous champions for our rivers and waters.

Since 1988, we have delivered resources, training, and leadership to more than 10,000 local champions to help them take a stand against apathy, neglect, and abuse of our rivers and lakes.

We envision a future of clean and ample water for people and nature, where everyone has access to clean, affordable water and healthy rivers.

WE CAN'T DO IT WITHOUT YOU!

Support from individual donors is critical to our mission. Each Headwaters Society member plays a crucial role in helping river champions succeed. You will enable River Network to provide leadership and support in three areas:

STRONG CHAMPIONS. Ensuring that individuals, organizations and coalitions are strong, effective, sustainable, results-oriented, and equipped to make the greatest impact for the future of our waters.

CLEAN WATER. Improving understanding of the causes of water quality decline, advancing policies and restoration practices that can turn this situation around and sustain improvement over the long term, and fostering expanded impact through collaboration.

AMPLE WATER. Growing familiarity with the challenges and opportunities associated with securing adequate water for healthy rivers and communities, crafting solutions that meet the needs of people and nature, and fostering expanded impact through collaboration.

Together, we can get to a better water future. We invite you to be part of this journey.
